

cino xs grande special features

After manufacturing over than 350.000 xs machines it has evolved into the cino xs grande and offers:

- 2 coffee types
- 2 drink sizes: small and big
- 2 brewing systems: Presso-Bean and Speed-Mix

• EASY USE

A functional area on the top of the machine (with a rail option) for cups storage.
A practical drop-leaf on the top of the cover for an easy water filling.
Water level sensor.

• OPERATIONAL

The cup station can be easily removed and disassembled to ensure full and easy cleaning.

• HANDFILL OPTION

A 3,5 lt water tank means that the cino xs grande can be used without the need for a mains water supply.

• ESPRESSO GRINDING

Direct dosage to ensure fresh drinks without losing the aroma.

• ILLUMINATED DELIVERY AREA

Whilst dispensing a red light is illuminated in the dispense area to keep user aware of progress.

• ILLUMINATED SELECTION BUTTONS

Selection buttons' leds light up when a product is finished.

• QUICK DISPENSE

Instant drinks in 12-15 seconds.

• SIMPLE USER INTERFACE

through clear digital messages.

ENERGY CONSUMPTION

Energy saving features are designed into the cino xs grande:

- use of low voltage leds to reduce consumption
- it is possible to set stand-by boiler temperature in time slots and to schedule switching off and on of the machine.

cino xs grande energy consumption is in accordance to the EVA-EMP protocol.

cino xs grande

A coffee shop within anyone's reach

The most famous table-top of the world is now grande

- 8 coffee selections
- 2 types of coffee, chocolate and milk
- 2 drink sizes

Hot drinks to everyone's liking! cino xs grande offers...

...2 varieties of coffee

- the classic coffee bean for Espresso based drinks
- mild and aromatic (maybe from Fair Trade) to taste a milky coffee or a MoccaCino®
- and a smart mix of both types to create exclusive recipes. Like in a coffee shop!

...2 drink sizes

- the traditional cappuccino in small cups, or
- the option to create larger *to go* drinks?

...2 brewing systems

- Presso-Bean: coffee beans freshly ground for a creamy espresso coffee.
- Speed-Mix: mix of instant coffee and other instant products in 12-15 seconds, to create a typical Italian cappuccino or a dense and creamy chocolate.

a world of choices!
