Payment systems

The 7100 is compatible with all major coin and cashless systems, and it is ready for installation of systems using Executive, MDB and BDV protocol (depending on the version). It is possible to install up to 2 systems (depending on the physical dimensions of the systems): - Coin mechanism

- Coin mechanism + Cashless

All details of weight, capacity and dimensions are approximate and are intended for guidance only. The list of beverage selections is not exhaustive. A space of at least 5.5 cm must be allowed between the back of the machine and the wall. For installation instructions, please refer to the Service Manual.

In all coffee versions it is possible to replace the instant coffee with sugar (must be specified by placement of the machine order).

Accessories

Base cabinet \cdot Worktop in mahogany \cdot Water tank (for base cabinet, 20 litres) \cdot Hygiene kits \cdot IRDA kit \cdot Mechanical counter \cdot FB cream kit.

7100 with base cabinet and worktop

Presented by:

Designed with your good taste in mind

Everybody appreciates a coffee break. Especially when it gives them the opportunity to get their hands on a lovely cup of delicious, freshly brewed coffee. That's why we offer you our 7100 series with modern, tasteful tabletop models that will be at home in any environment where coffee is appreciated.

Attractive and user-friendly

Maybe it's the clean lines. Or it's strong features. Either way, users are never in any doubt when they come face to face with the elegant, classic Scandinavian design of a genuine Wittenborg.

Innovative on the inside

When you open the machine, you immediately see the ingenious, practical coffee concept and realise why the combination of the latest vending technology and the unique water and mixing system make the machine so easy to maintain and so quick to fill.

Drinks to suit all tastes

You can look forward to your next coffee break! Because the 7100 series by Wittenborg brings you exceptional taste sensations based on freshbrew tea, freshbrew coffee, bean to cup or instant coffee ... And satisfes even your hottest wishes!

- We lead the way with lean, green production processes
- Avex 2007 Awards Best Sustainability award
- Vending Paris 2008 Awards Best Sustainable Development & the Environment
- We apply Life Cycle Product Design
- We adhere to a stringent Environmental Management System
- We adopt product Life Cycle Assessment
- We're proud to be a member of the EMP committee

FB 7100

A safe choice

The freshbrew model, available in coffee or tea versions, gives you plenty of choice and is particularly user friendly. The obvious solution if you put a premium on versatility and want to be sure users always get what they want.

ES 7100

The connoisseur

The espresso model lets you serve a wide variety of coffee solutions that will satisfy even the most discerning taste buds and will give everyone the coffee of their dreams!

The 7100 reveals its functionally designed interior with smooth surfaces, clear colour codes and easy access to all serviceable parts. This ensures easy, rapid and effective cleaning and maintenance.

The FB and ES 7100 have a large, ergonomically designed coffee container with a capacity of more than 200 cups of coffee. The container makes the coffee tantalisingly visible to users and can easily be pulled out and refilled while still in the machine.

Optimum ease of use is in focus with the large, open serving area and its adjustable cup holder. This makes it easy for the users to position and remove cups, and at the same time it is possible to brew directly in jugs up to 24 cm high.

The ingredient containers have a handle, so they are easy to pull out and re-fill. The lid opens automatically and the containers can be filled quickly and easily, either in or out of the machine.

Nice coffee!

A single glance at the attractive table-top models of the 7100 series by Wittenborg is enough to convince you that this machine has class. From the area with the large poster depicting the coffee, the eye is slowly drawn towards the easy-to-follow selection panel with its large, 4 x 20 character LCD display which guides the users through up to 23 beverage selections and pre-selection buttons for coffee or tea strength.

The 7100 comes in two versions: Fresh Brew (FB) and Espresso (ES). The FB 7100 is based on classic ground coffee or whole coffee beans which are ground in the machine. The coffee is then brewed in the traditional

way. The brewer is also ideally suited for leaf tea, producing a truly exceptional drink. The ES 7100 is also based on coffee beans, which guarantees espresso of the highest quality.

With its flexible configuration options, programmable cleaning cycle and optimised filling and maintenance procedures, the 7100 series is perfect for offices, administration buildings, reception areas, kitchenettes and canteens. With the option to install a coin mechanism or cashless system and a wide selection of accessories, it ticks all the right boxes for a modern coffee solution, whatever your taste!
